

ATRS retirees were recently sent copies of their tax form 1099-R for 2025. These forms are necessary when preparing your state and federal income tax returns. There are three copies: one to be submitted with your federal tax return; one to be submitted with your state tax return and; one to be kept for your records. **These forms do not need to be returned to ATRS.**

**Below is an explanation of information that has been provided:**

**Box 1** - Contains the total gross distribution(s) you received in 2025 from ATRS.

**Box 2a** - Contains **only** the **taxable portion** of the amount in box 1.

**Box 2b** - If an "X" is entered in the first box, this indicates that ATRS was unable to determine the taxable portion to enter in box 2a. You should contact the Internal Revenue Service or a tax consultant for more information.

**Box 4** - Contains the federal income tax withheld in 2025 from your distribution(s).

**Box 5** - Indicates the portion of your contributions you recovered this year "**tax free.**" If you retired July 1, 1986, or before, this field will be zero since all your contributions have been fully recovered. This field will also be zero if you are a disability retiree under the age of 60. Disability retirees do not start receiving a portion of their contributions as "tax-free" income until they reach the age of 60.
